fitbez@gmail.com | 919-895-1080 | Washington, DC

[Portfolio](#) | [github](#) | [linkedin](#)

*Full-stack Web Developer with a passion for web technologies, who embraces a mindset of continuous learning by finding new ways to challenge myself everyday! Experienced in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handlebars JS, and React Js. Additionally, knowledgeable in engineering and management through the experience of running a construction company for the past few years.*

## EDUCATION

**George Washington University, Ballston VA**

October 2017 - January 2018

*Full Stack Web Development Program*

**Addis Ababa University, Addis Ababa Ethiopia**

August 2006

Bachelor's Degree in Building Engineering

Accolades:

- Certificate on Entrepreneurship from UNDP.
- Certificate on Customer Services from Management Institute of Ethiopia.

## APPLICATIONS BUILT

### Social Momsies

- This app would help moms find the nearest kid friendly places, activities, restaurants, or events that might be happening near their city. It also allows moms to communicate back and forth through playgroup chat room and organize meetups to take advantage of the city's amenities.
- Developed by a four-person team. I was responsible for creating google passport user authentication, getting users information to frontend and heroku deployment.
- MERN | react bootstrap | socket.io | google map API | yelp API
- <https://socialmomsies.herokuapp.com>

### Booze Clues

- An application supports Bars and Bar Patrons playing in Bar Trivia nights. Developed by a three-person team. I was responsible working on Passport User Authentication and Database.
- Javascript | jQuery | Node.js | Express | Passport.js | Handlebars.js | Mysql | Materialize | Socket.io
- <https://protected-sierra-25147.herokuapp.com/>

### Mind-Reader

- Shopping website that allows users to search Walmart and Amazon simultaneously in a user-friendly UI
- Developed by a three-person team to combine two APIs into one user interface. I was responsible working on both Walmart and Amazon APIs up to combining them into one UI.
- Amazon API | Walmart API | Velocity.js | Express.js | AJAX | Responsive CSS | Bootstrap | jQuery | JavaScript and more.
